Mr. Forwood, Secretary to the Admiralty. recently made the remarkable statement that the unval departments of the Government now work from 20 to 30 per cent. cheaper than the private traders who compete with them. It would be interesting to cross-examine Mr. Forwood on this statement and ascertain exactly what it means. A private trader has to make his charges sufficient to cover permanent expenses, interest on capital, and cost of labour and material. If in making up the Government accounts the first two of these items are raising the Tweed and what the Dock Company would have done the work for. If between plaintiff and defendant. only the divers' wages are to be charged to

no doubt the account will present a very economical appearance, but the actual amount of time and energy wasted has, as everyone knows, been considerable. The Dock Company would have had the vessel up and in dock within a week, whereas it in this case of a will; it was a question affecting took the Naval Authorities over a month the ownership of certain property in the Ho to raise her. The money paid for the property was \$625,000, of which \$337,000 was paid in cash by the Chairman of he Board of Directors, James Whittall, a wellknown London merchant, who paid the mines a visit before the purchase was made, and who was accompanied by a Welch mining expert. They made an enthusiastic report. A year ago the man who sold the mine to the English company had a row in New Mexico with his partner and was shot dead. A couple of months ago a gentleman interested in the company and an American expert. Womble, of San Francisco, to examine the property and report. Womble returned five weeks ago and declared the ore of the dumps to be of good quality on the surface, but rub-bish underneath. In May an official circular deelared the cre in sight to be valued at \$2,000,000. but a trustworthy expert says that the ore in sight is not worth \$50,000."
